## Key Instant Recall Facts Year 2 – Summer 2

### I know the multiplication and division facts for the 5 times table

By the end of this half term, the children should know the following facts. The aim is for them to recall these facts **instantly**.

$5 \times 1 = 5$	$5 \div 5 = 1$
$5 \times 2 = 10$	$10 \div 5 = 2$
$5 \times 3 = 15$	$15 \div 5 = 3$
$5 \times 4 = 20$	$20 \div 5 = 4$
$5 \times 5 = 25$	$25 \div 5 = 5$
$5 \times 6 = 30$	$30 \div 5 = 6$
$5 \times 7 = 35$	$35 \div 5 = 7$
$5 \times 8 = 40$	$40 \div 5 = 8$
$5 \times 9 = 45$	$45 \div 5 = 9$
$5 \times 10 = 50$	$50 \div 5 = 10$

#### Key Vocabulary

What is 5 **multiplied by** 7?

What is 5 **times** 9?

What is 60 **divided by** 5?

Your child should be able to answer these questions in any order including missing number questions, e.g.  $5 \times \square = 8$  or  $\square \div 5 = 6$

#### Top Tips!

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You do not need to practise them all at once; perhaps you could have a fact of the day? If you would like more ideas, please speak to your child's teacher.

Use what you already know - If your child knows that  $5 \times 5 = 25$ , they can use this fact to work out that  $5 \times 6 = 30$

Test the parent – Your child can make up their own tricky division questions for you, e.g. What is 45 divided by 5? They need to be able to multiply to create these questions.

Play games – Your child should already be accessing Times Tables Rock Stars regularly at [www.ttrockstars.com](http://www.ttrockstars.com). Please contact their teacher if you have misplaced their log-in details.

Spot patterns – What patterns can your child spot in the 5 times table?
